

## HOW TO USE YOUR ROLLER IN 5 EASY STEPS

Open the Roller.  
Place a filter tip in the roller at  
the line side of the mat

Fill the roller with tobacco,  
ensuring an even distribution.  
Do not overfill ! Close the roller  
and simultaneously use both  
thumbs and roll downwards.

Place the cigarette paper straight  
into the slit (the sticky side up and  
facing you).

Roll the paper downwards until  
the gum line. Wet the gum line  
and roll the cigarette one full turn.

Open the roller, and your perfect  
cigarette is finished.

### TIPS :

Check out one of the instruction videos online.

Clean your roller after each use.

Do not overfill the roller, as that may lead  
to tearing of the sleeve, or even permanent  
damage to the roller.

If your roller is damaged you can consider to  
repair it with spare parts available from our  
webshop. Or contact [info@futurola.com](mailto:info@futurola.com)  
to see if your roller can be repaired under warranty
